MSS PUBLISHES THREE REVISED STANDARDS

Vienna, VA – The Manufacturers Standardization Society (MSS) is pleased to announce the December 2015 publication of the following three revised standards:

Updated/Revised Publications

• MSS SP-88-2015, Diaphragm Valves
• MSS SP-94-2015, Quality Standard for Ferritic and Martensitic Steel Castings for Valves, Flanges, Fittings, and Other Piping Components – Ultrasonic Examination Method
• MSS SP-100-2015, Qualification Requirements for Elastomer Diaphragms for Nuclear Service Diaphragm Valves

Listing of all current MSS Standards: http://msshq.org/Store/PriceList.cfm

About MSS
The Manufacturers Standardization Society (MSS) of the Valve and Fittings Industry is a non-profit technical association organized for development and improvement of industry, national and international codes and standards for Valves, Valve Actuators, Valve Modifications, Pipe Fittings, Flanges, Pipe Hangers and Supports, and Associated Seals. Since its establishment in 1924, MSS has been dedicated to developing standards for national and global application, in cooperation with other standardizing bodies and regulatory authorities.

MSS is an American National Standards Institute (ANSI)-accredited standards developer.

For media inquiries, please contact MSS Executive Director, Robert O’Neill at (703) 281-6613 or boneill@mss-hq.org.
