FOR IMMEDIATE RELEASE

September 11, 2017

MSS PUBLISHES A REISSUE AND ERRATA FOR STEEL PIPELINE STANDARD

Vienna, VA – The Manufacturers Standardization Society (MSS) announces the publication of the following important updates to an existing American National Standard:

- **2017 Reissue of ANSI/MSS SP-44-2016, Steel Pipeline Flanges**

This is not a revision and is referenced as "ANSI/MSS SP-44-2016 (2017 Reissue)".

- **Errata Sheet to current ANSI/MSS SP-44-2016, Steel Pipeline Flanges**

Corresponds with errata corrections contained in the 2017 Reissue and is meant for those that have already acquired the standard.

The 2017 Reissue and the corresponding Errata Sheet corrects erroneous table data introduced after approval, during publication processing. The Errata Sheet is meant for insertion into the current 2016 Edition. The reissued standard includes all errata incorporated into the document.

It can be downloaded (free of charge) at: <http://msshq.org/Store/Amendments.cfm>

All Standard Practices are available from MSS and through authorized distributors. A listing of official distributors is available at: <http://msshq.org/Store/orderinfo.cfm>.

Listing of all current MSS Standards: <http://msshq.org/Store/PriceList.cfm>

About MSS

The Manufacturers Standardization Society (MSS) of the Valve and Fittings Industry is a non-profit technical association organized for development and improvement of industry, national and international codes and standards for Valves, Valve Actuators, Valve Modifications, Pipe Fittings, Flanges, Pipe Hangers and Supports, and Associated Seals. Since its establishment in 1924, MSS has been dedicated to developing standards for national and global application, in cooperation with other standardizing bodies and regulatory authorities.

MSS is an American National Standards Institute (ANSI)-accredited standards developer.

For media inquiries, please contact MSS Executive Director, Robert O'Neill at (703) 281-6613 or boneill@msshq.org.
