FOR IMMEDIATE RELEASE

January 31, 2017

MSS PUBLISHES REVISED NATURAL GAS SERVICE STANDARDS FOR EXCESS FLOW AND MANUAL DISTRIBUTION VALVES

Vienna, VA – The Manufacturers Standardization Society (MSS) is pleased to announce the publication of the following revised Standard Practices:

- **MSS SP-115-2017, *Excess Flow Valves, NPS 1¹/₄ and Smaller, for Natural Gas Service***
- **MSS SP-131-2017, *Metallic Manually Operated Gas Distribution Valves***

All Standard Practices are available from MSS and through authorized distributors. A listing of official distributors is available at: <http://msshq.org/Store/orderinfo.cfm>.

Listing of all current MSS Standards: <http://msshq.org/Store/PriceList.cfm>

About MSS

The Manufacturers Standardization Society (MSS) of the Valve and Fittings Industry is a non-profit technical association organized for development and improvement of industry, national and international codes and standards for Valves, Valve Actuators, Valve Modifications, Pipe Fittings, Flanges, Pipe Hangers and Supports, and Associated Seals. Since its establishment in 1924, MSS has been dedicated to developing standards for national and global application, in cooperation with other standardizing bodies and regulatory authorities.

MSS is an American National Standards Institute (ANSI)-accredited standards developer.

For media inquiries, please contact MSS Executive Director, Robert O’Neill at (703) 281-6613 or boneill@msshq.org.
