FOR IMMEDIATE RELEASE

October 10, 2017

MSS PUBLISHES BOLTING AMENDMENT TO DUCTILE IRON VALVE STANDARD

Vienna, VA – The Manufacturers Standardization Society (MSS) announces the publication of the following amendment to an existing Standard Practice:

Updates to Existing Publications

- **Amendment to MSS SP-136-2014, Ductile Iron Swing Check Valves**

This important “bolting” Amendment was originally released September 25th and can be downloaded (free of charge) at: <http://msshq.org/Store/Amendments.cfm>

All Standard Practices are available from MSS and through authorized distributors. A listing of official distributors is available at: <http://msshq.org/Store/orderinfo.cfm>.

Listing of all current MSS Standards: <http://msshq.org/Store/PriceList.cfm>

About MSS

The Manufacturers Standardization Society (MSS) of the Valve and Fittings Industry is a non-profit technical association organized for development and improvement of industry, national and international codes and standards for Valves, Valve Actuators, Valve Modifications, Pipe Fittings, Flanges, Pipe Hangers and Supports, and Associated Seals. Since its establishment in 1924, MSS has been dedicated to developing standards for national and global application, in cooperation with other standardizing bodies and regulatory authorities.

MSS is an American National Standards Institute (ANSI)-accredited standards developer.

For media inquiries, please contact MSS Executive Director, Robert O'Neill at (703) 281-6613 or boneill@msshq.org.
