MSS PUBLISHES REVISED STANDARD FOR
STAINLESS-STEEL OR STAINLESS-STEEL-LINED, BONNETLESS,
KNIFE GATE VALVES WITH FLANGED ENDS

Vienna, VA – The Manufacturers Standardization Society (MSS) is pleased to announce the publication of the following revised Standard Practice:

• MSS SP-81-2017, Stainless-Steel or Stainless-Steel-Lined, Bonnetless, Knife Gate Valves with Flanged Ends

Summary: This Standard Practice covers all stainless-steel or stainless-steel-lined, cast, or fabricated bonnetless, knife gate valves with flanged ends from size NPS 2 (DN 50) through NPS 36 (DN 900). The valves identified in SP-81 are intended for use in applications where shock loadings are not encountered. Applications at conditions other than those specified in Section 3 require special design considerations.
