MSS PUBLISHES REVISED STANDARD FOR LIVE-LOADED VALVE STEM PACKING SYSTEMS

Vienna, VA – The Manufacturers Standardization Society (MSS) is pleased to announce the publication of the following revised Standard Practice:

• MSS SP-143-2018, Live-Loaded Valve Stem Packing Systems

This Standard Practice was developed and is maintained by MSS Technical Committee 308, Packings & Gaskets.

Listing of all current MSS Standards: http://msshq.org/Store/PriceList.cfm

About MSS
The Manufacturers Standardization Society (MSS) of the Valve and Fittings Industry is a non-profit technical association organized for development and improvement of industry, national and international codes and standards for Valves, Valve Actuators, Valve Modifications, Pipe Fittings, Flanges, Pipe Hangers and Supports, and Associated Seals. Since its establishment in 1924, MSS has been dedicated to developing standards for national and global application, in cooperation with other standardizing bodies and regulatory authorities.

MSS is an American National Standards Institute (ANSI)-accredited standards developer.

For media inquiries, please contact MSS at (703) 281-6613 or standards@msshq.org.
