MSS PUBLISHES SIX REVISED AND ONE NEW STANDARD

Vienna, VA – The Manufactures Standardization Society (MSS) is pleased to announce the following six revised standards and one new publication:

Updated/Revised Publications

- MSS SP-75-2014, *High-Strength, Wrought, Butt-Welding Fittings*
- MSS SP-95-2014, *Swage(d) Nipples and Bull Plugs*
- MSS SP-129-2014, *Copper-Nickel Socket-Welding, Fittings, and Unions*
- MSS SP-136-2014, *Ductile Iron Swing Check Valves*
- MSS SP-139-2014, *Copper Alloy Gate, Globe, Angle, and Check Valves for Low Pressure/Low Temperature Plumbing Applications*

Note: SP-75-2014 and SP-129-2014 includes a revised title.

New Publication

- MSS SP-148-2014, *Low Pressure Flanged or Lugged Carbon Steel and Iron or Ductile Iron, Cast or Fabricated, Bonnetless, Knife Gate Valves without Liners*

  Summary: This Standard Practice establishes requirements for carbon steel, iron or ductile iron, cast or fabricated, bonnetless, unlined knife gate valves with flanged or lugged ends from size NPS 2 (DN 50) through NPS 60 (DN 1500). The valves identified in this Standard Practice are intended for use in applications where shock loadings are not encountered.

About MSS

The Manufacturers Standardization Society (MSS) of the Valve and Fittings Industry is a non-profit technical association organized for development and improvement of industry, national and international codes and standards for Valves, Valve Actuators, Valve Modifications, Pipe Fittings, Flanges, Pipe Hangers and Supports, and Associated Seals. Since its establishment in 1924, MSS has been dedicated to developing standards for national and global application, in cooperation with other standardizing bodies and regulatory authorities.

MSS is an American National Standards Institute (ANSI)-accredited standards developer.

For media inquiries, please contact MSS Executive Director, Robert O’Neill at (703) 281-6613 or boneill@mss-hq.org.
