MSS PUBLISHES REVISED AMERICAN NATIONAL STANDARD FOR VALVE AND FITTINGS TERMINOLOGY

Vienna, VA – The Manufacturers Standardization Society (MSS) is pleased to announce the publication of the recently revised Standard Practice, ANSI/MSS SP-96-2017, Terminology for Valves, Fittings, and Their Related Components, which has been approved by the American National Standards Institute (ANSI) as a Revised American National Standard (ANS).

The first edition of MSS SP-96 was published in 1986. Today, it is widely used in the valve and piping industries and used for related education efforts. MSS SP-96 is a unique and important ANS on the subject of terminology for valves, fittings, and their related components. It is the only comprehensive ANS specifically for the valves and fittings industry. As such, industry will continue to benefit from having ANSI/MSS SP-96, with a common list of preferred terms and definitions, to improve communication and further promote standardization. This revised edition includes many additional terms and improvements important to the industry.

MSS SP-96 is maintained under the consensus of the MSS Technical Committee 302 (Marking and Terminology).

The newly revised and ANSI-approved American National Standard version of SP-96-2017 is now available.

Listing of all current MSS Standards: http://msshq.org/Store.PriceList.cfm

About MSS

The Manufacturers Standardization Society (MSS) of the Valve and Fittings Industry is a non-profit technical association organized for development and improvement of industry, national and international codes and standards for Valves, Valve Actuators, Valve Modifications, Pipe Fittings, Flanges, Pipe Hangers and Supports, and Associated Seals. Since its establishment in 1924, MSS has been dedicated to developing standards for national and global application, in cooperation with other standardizing bodies and regulatory authorities.

MSS is an American National Standards Institute (ANSI)-accredited standards developer.

For media inquiries, please contact MSS Executive Director, Robert O’Neill at (703) 281-6613 or boneill@msshq.org.
