
July 9, 2012

This “normative” errata correction applies only to MSS SP-109-2012 (current) and SP-109-1997 (R 2006) editions, involving Weld-Fabricated Copper Solder-Joint Pressure Fittings.

**Note the following correction:**

1. **Page 5, Table 3 (Dimensions of Solder-Joint Ends), Headings/Sub-Headings:** Male Ends/Outside Diameter A/Max. The dimension should indicate “1.127” instead of the existing “10127”.

This Errata Sheet has been inserted into the Standard Practice. For those who obtained the Standard Practice before the July 9 publication date indicated above, please include this Errata Sheet with your current Standard Practice.

Future printing of the Standard Practice will include this corrected information.
