AMENDMENT FOR MSS SP-111-2015
(Gray-Iron and Ductile-Iron Tapping Sleeves)

This “normative” amendment applies to MSS SP-111-2015 edition.

NOTE THE FOLLOWING AMENDMENTS:

Page 6, Annex A (Referenced Standards and Applicable Dates). Amend the existing Annex A with the following specific updates:

MSS; ANSI/MSS
- SP-60-2012-2017 Connecting Flange Joints between Tapping Sleeves and Tapping Valves
- SP-96-2011-2017 Guidelines on Terminology for Valves, and Fittings, and Their Related Components
- SP-113-2012-2017 Connecting Joints between Tapping Machines and Tapping Valves

This Amendment has been inserted into the Standard Practice. For those who obtained the Standard Practice before the April 27, 2017 amendment publication date indicated above or otherwise do not already have this information, please include this Amendment within your existing 2015 edition of the Standard Practice.

Future editions of this Standard Practice will include this amended information.
